

Operated by REACH Air Medical Services

Chest Pain

Accredited Chest Pain Centers

Methodist Hospital and its campuses including:

- Metropolitan Methodist Hospital
- Northeast Methodist Hospital
- Methodist Texsan Hospital
- Methodist Stone Oak Hospital

To achieve this distinction, the hospital demonstrated its expertise and commitment to quality patient care and met or exceeded a wide set of standards related to heart care, including:

- Quickly assessing, diagnosing, and treating patients with chest pain
- Ensuring personnel are trained to the highest standards
- Having a functional design that promotes optimal patient care
- Continually seeking to improve processes and procedures
- Integrating the emergency department with the local EMS
